

The diagram consists of 10 horizontal rows of squares. The first row has 25 squares, the second has 26, the third has 27, the fourth has 28, the fifth has 29, the sixth has 30, the seventh has 31, the eighth has 32, the ninth has 33, and the tenth has 34. The squares are arranged in a grid-like pattern, with some rows having gaps or different starting points.

A 6x25 grid of squares. The squares are arranged in 6 rows and 25 columns. The shading of the squares varies, with some being white, some light gray, and some dark gray. The distribution of shading is not uniform, with some areas being more densely shaded than others. The overall pattern suggests a spatial distribution of data points or a 2D map of some kind.

A 20x20 grid of squares, each containing a small gray square. The gray squares are arranged in a pattern that roughly forms the letter 'A', but with significant noise and missing pixels, making it difficult to recognize. The grid is composed of 20 rows and 20 columns of squares.
