A 3x20 grid of squares representing a 3D object. The top row has 18 squares, the middle row has 20 squares, and the bottom row has 16 squares. The squares are arranged to form a complex 3D shape, likely a cube with some internal structure.

The diagram consists of four rows of squares. The top row has 24 squares, the second row has 24 squares, the third row has 24 squares, and the bottom row has 12 squares. The squares are arranged in a grid-like pattern, with some squares missing in the top row to form a specific shape.

The diagram consists of two horizontal rows of small squares. The top row contains 20 squares in total. A bracket above the first two squares is labeled 'a', and another bracket above the next two squares is labeled 'b'. The remaining 16 squares are ungrouped. The bottom row contains 6 squares in total.
