A 3x20 grid of squares. The top row has 19 squares, with the 10th square missing. The middle row has 20 squares. The bottom row has 15 squares, with the last 5 squares missing.

A 3D object is represented by a grid of squares. The object is a rectangular prism with dimensions 3x20x20. The top row consists of 19 squares, the middle row consists of 20 squares, and the bottom row consists of 12 squares. The squares are arranged to form a rectangular prism with a 3x20x20 volume.

A 20x20 grid of small squares, some of which are filled with black, forming a sparse pattern. The pattern is not uniform, with some rows having more filled squares than others. The filled squares are distributed across the grid, with some clusters and some empty spaces.
